# Roll Your Own Dashboard in XAML

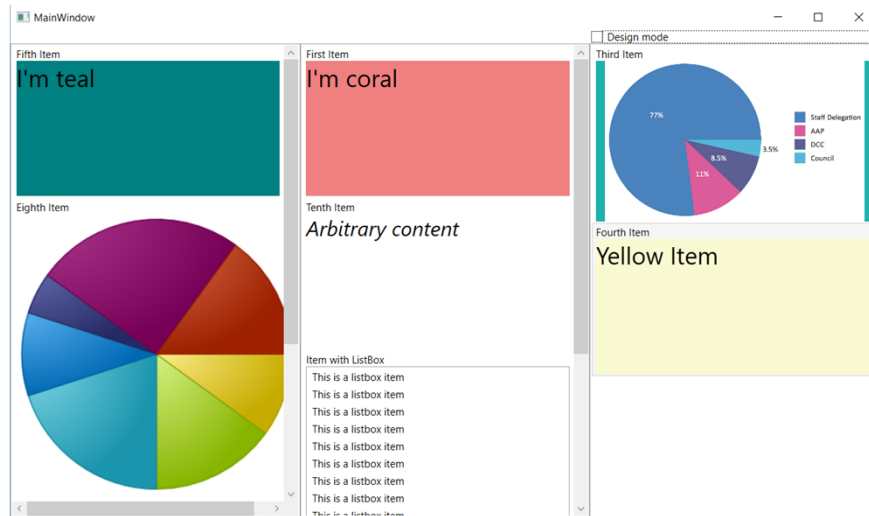

**Billy Hollis**  
XAML Slinger  
Next Version Systems

Level: Intermediate

## This session is mostly demo and code

- Starts by demonstrating a professional-quality XAML dashboard, showing complete feature set
- Next we will do an implementation of a simpler version with the same general design and architecture
- The code for the basic dashboard will be available after the session

## Screen shot of simple dashboard w/o finished visuals

- User interface design and prototyping
- Native app development – UWP/WPF/XAML
- Training on user experience design
- Training on XAML
  - Windows 10 / WPF / mobile / touch
  - Beginning through advanced
